

Erwyna Soo Wen Xin

Collaborative and adaptable problem solver who enjoys working with diverse teams to turn ideas into practical outcomes. Strong communicator with experience engaging both technical and non-technical stakeholders, thriving in fast-paced environments, and continuously learning new technologies and tools.

Kuala Lumpur, Malaysia

Advanced Computer Science Student | AI & Software Development

Work Experience

AI & Marketing Intern • NTT DATA

Feb 2024 - Aug 2024

- Designed an AI chatbot UI from scratch with ReactJS, focusing on user experience and responsiveness
- Successfully integrated the chatbot with Gemini, OpenAI, and MLC-LLM for enhanced functionality
- Deployed and trained the AI model, integrated the model database, and handled weight conversions efficiently
- Conducted in-depth research on Genesys and Avaya cloud-based knowledge, presenting findings on internal and external factors impacting customer experience

Marketing & Sales Consultant • Creative Unicorn

Jan 2025 – Jul 2025

- Analysed campaign performance using Facebook Ads Manager, breaking down data into tables and visualisation dashboards to communicate insights effectively.
- Translated performance data into actionable recommendations, improving campaign reach and engagement.
- Collaborated with clients to explain technical ad metrics (CTR, CPC, conversion rates) in accessible terms.
- Schedule and coordinate sales meetings and product demonstrations, assisting in the preparation of sales contracts and other necessary documentation

AI Academy Trainee • Gamuda

Jan 2025 - March 2025

- Led a project team to design and deploy an AI-powered website, integrating React frontend with AI backend services.
- Oversaw task delegation, sprint planning, and version control using TeamHub, ensuring smooth collaboration.
- Researched applications of large language models (LLMs) in web systems and experimented with integration workflows.
- Designed UI/UX wireframes to illustrate how AI-driven tools could improve usability.
- Documented workflows and presented outcomes to mentors and peers, developing strong technical communication skills.
- Expanded technical knowledge by participating in Gamuda SME networking sessions and AI workshops.

CommentSense • L'Oréal x Monash Datathon 2025 (Top 10 Finalist)

Aug 2025 - Aug 2025

- Leader of a 4-member team to develop CommentSense, an AI-powered analytics platform for evaluating comment quality beyond traditional engagement metrics.

- Designed Quality Comment Ratio (QCR) and Quality Share of Engagement (Q-SoE) metrics to measure meaningful audience engagement.
- Built a Streamlit dashboard integrating sentiment analysis, spam detection, toxicity filtering, beauty-specific categorisation, and AI-powered comment insights.
- Developed data processing pipelines and evaluation workflows to improve reliability, scalability, and model performance.

Hackathon Participant • Deriv Hackathon

Jan 2025 - March 2025

- Led a team to build a fraud detection system targeting suspicious transactions.
- Implemented machine learning algorithms for anomaly detection, contributing to the model's accuracy.
- Experimented with cloud-based deployment pipelines for scaling fraud detection solutions.
- Produced a technical pitch deck and demo, presenting findings to judges under tight deadlines.

Leadership & Initiatives • Sunway University

Co-Founder, Elementary Orbit (ELO)

Aug 2023 – Apr 2025

- Co-founded a transfer assistance and note-sharing platform for ADTP students.
- Designed and developed the ELO website, applying UI/UX design principles for accessibility and usability.
- Organized and maintained a shared academic drive, streamlining resource sharing across cohorts.
- Led advertising and outreach campaigns, securing faculty approval to legitimise the platform.

Leadership & Student Engagement • Monash University

July 2025 - Present

- Serve as Treasurer of the Monash Muay Thai Club, managing budgeting, financial reporting, vendor payments, reimbursements, and event expenditure tracking.
- Prepare funding proposals, financial reconciliations, and compliance documentation for university approvals and audits.
- Coordinate procurement, logistics, and financial planning for club activities and collaborative events.
- Represent Monash University as a Student Ambassador at outreach events, campus tours, open days, and student engagement initiatives.
- Communicate academic and campus experiences to prospective students & parents.
- Develop strong public speaking, leadership, and organisational skills through university-facing initiatives.

Education

2025 - Present

Monash University Malaysia

Bachelor of Advanced Computer Science

2021 - 2023

Sunway University, School of American Education (ADTP)

Computer Science

Skills

Skills

- Java, Python, ReactJS, HTML, Vue & CSS
- AI Model Deployment & Integration
- Experience with thriving under high-pressure environments
- Canva, Figma & Photoshop Graphic Design
- Blender for 3D animation, geometric nodes, etc...
- Video Editing & Digital Marketing
- Google Analytics Certification

Languages

- English— Native
- French — Native
- Chinese — Weak Proficiency
